## EXPERIENCE

**Full-stack Developer** – Publicis Group (client: Compass)

Jan 2026 - Jun 2026

- Full-stack development on digital lending platforms in Next.js, Node.js, Prisma and MySQL.
- Led a WCAG 2.1 AA accessibility epic: audit, refactoring and full compliance across all critical flows.
- Designed and implemented Cypress E2E test suites covering the main loan application flows.
- Integrated third-party services: identity verification, document capture with client-side compression.
- Managed cross-product bug fixing across 3 parallel applications using a multi-worktree Git strategy.

**Lead Developer** – Moongy

Feb 2025 - Aug 2025

- Defined architecture for management software on embedded: tech choices, data model, coding standards.
- Coordinated 2 developers in Agile Scrum: sprint planning, task breakdown, code review.
- Set up CI/CD pipeline that cut release times and reduced regressions on device builds.
- Optimized runtime performance and memory footprint on constrained hardware.

**Full-stack Tutor** – EPICODE

Jun 2024 - Jan 2025

- Taught the MERN stack to cohorts of 40 students through lectures, coding labs and 1:1 mentoring.
- Designed exercises and capstone projects; cohort completion rate of 100%.
- Introduced testing, version control workflow and deployment practices into the curriculum.

**Front-end Tester** – Hays

Aug 2023 - Feb 2024

- Built Cypress end-to-end suites covering 80% of critical flows for a web application.
- Integrated automated tests into the CI pipeline, surfacing regressions before release.
- Worked with developers and PMs on defect triage and pre-release hardening.

**Front-end Developer** – YOOX Net-a-Porter Group

Aug 2022 - Jul 2023

- Built and maintained features on enterprise e-commerce in cross-functional teams.
- Improved Core Web Vitals (LCP, FID, CLS) with measurable impact on SEO and conversion.
- Raised Lighthouse accessibility score from baseline to 100 on key page templates.

**Full-stack Tutor** – Develhope

Feb 2022 - Sep 2022

- 1:1 tutoring on JavaScript, React and Node; support on data structures, algorithms and project architecture.
- Authored teaching materials (slides and reference repos) used by 20+ students.

**Front-end Developer** – F1 Consulting and Services

Mar 2020 - Jul 2022

- Built React and Redux SPAs integrated with .NET Core backends running on Kubernetes for enterprise clients.
- Implemented code splitting and caching, reducing time-to-interactive on high-traffic modules.
- Collaborated with QA and DevOps on release pipelines and monitoring.

**Freelance Developer** – Self-employed, Sanremo

Jan 2020 - present

- Designed and shipped custom websites and web apps in React, Next.js, WordPress and Shopify.
- End-to-end delivery: requirements, UX/UI, development, testing and deployment.

**Social Media Manager** – SEO and Digital Marketing

Nov 2017 - Jan 2020

- Managed social channels and small SEO campaigns for SMBs; cross-functional skills useful when collaborating with marketing and product.
